SDN™

SDN™ Technology allows for low-cost, high-throughput nanocomposite multifunctional coatings deposition on almost any substrate.

Advenira Enterprises Takes Part in GlassCon Global 2014

SDN™ Diffusion Barrier Coating Benefits to be Showcased in Keynote Speech

SUNNYVALE, Calif. –(July 7, 2014)– Advenira Enterprises, Inc. will take part in GlassCon Global 2014 on Wednesday, July 9, 2014 in Philadelphia, PA. Senior Chemist Olivia Niitsoo will present a keynote speech highlighting the diffusion barrier coatings on glass with Advenira's patented Solution Derived Nanocomposite (SDN™) technology at 9:00 a.m. EDT (6:00 a.m. PST). CEO/CTO Dr. Elmira Ryabova will answer questions following the presentation.

The company was founded by Dr. Ryabova as a means to address the world's increasing energy consumption and waste through the development of cost-effective, high-performance and environmentally friendly nanoscale coatings.

"To me, clean technology is key. It means producing the same performing materials without using toxic substances, without generating hazardous waste and without huge energy consumption," Dr. Ryabova states.

Advenira is a global provider of proprietary liquid-based protective, optical and functional nanocomposite coating materials. In the glass market, the company focuses on energy-efficient windows, touchscreens, flat panel displays and photovoltaic panels.

Advenira has become recognized for addressing the growing demand for durable, long-lasting coatings that block heat and preserve energy, repel water and residue, and secure openings.

About Advenira Enterprises, Inc.

Advenira Enterprises, Inc. is a California-based company located in the heart of Silicon Valley known for its novel Solution Derived Nanocomposite (SDN™) technology that allows for low-cost/high-throughput multifunctional coatings deposition on practically any type/shape/material substrate. Advenira commercializes its patented coatings technology in the Glass, Corrosion and Semiconductor markets – spanning the world's most important industries - with dramatic advantages over traditional techniques. For more information, please visit <http://www.advenira.com>.
